

FARM SALES REACH \$32,500

Over 1,000 in Gypsum Township Change Hands.

IOWA MEN THE BUYERS

They Will Make Their Homes in This County.

Four farms in Gypsum township were sold last week through the agency of R. D. Allen, and the amount involved in the transactions is \$32,500. All the farms were in proximity to each other and were all bought by Iowa people, who intend to move to this county and make their homes on the land they have just acquired.

Benjamin Salisbury of Des Moines, Ia., bought 50 acres for \$14,000 cash. A half section of the land was sold by Mike Dillon and one quarter was sold by Dr. J. W. Kirkwood of this city. The new owner will move onto the half section, and his son will move onto the quarter purchased from Dr. Kirkwood.

Mr. Dillon's home place of 20 acres was sold to Mr. Vanderburgh of Carroll county, Iowa, for \$12,000.

A son of Mr. Vanderburgh bought D. Seidock's farm of 20 acres, a few miles from the land his father bought, for \$6,000.

All these farms are upland and will this year produce immense crops of corn. Mr. Allen, who made the sales, stated yesterday to an Eagle reporter that a large number of Iowa people will come to Sedgewick county next spring to invest in farm lands. They realize that Kansas farm lands are as good as those of Iowa, and that they can be purchased at a much lower price.

WILL MEET IN WICHITA

Livestock Sanitary Boards in Session Here in October.

The sixth annual meeting of the Interstate Association of Livestock Sanitary Boards, will meet in this city October 14 and 15. At the meeting held in Buffalo last fall, in which sixteen states were represented, Mr. W. E. Bolton, of the Oklahoma Livestock Sanitary Board, extended to the association the invitation of the Wichita Commercial Club for the association to meet in this city and they were accepted and the date was selected as the second Tuesday of October. W. H. Dunn, of Tennessee, is the president of the association and W. E. Bolton vice-president.

One of the principal topics discussed by the members of the board at the meeting was the loss of the yearling calves caused by destruction among the herds of the west, and the association voted to have the matter investigated and that the loss and the ways to kill it be taken up by the bureau of animal industry of the agricultural department.

In warm weather FRICKLY ASH BITTERS helps your staying qualities. Workers who use it occasionally stand the heat better and are less fatigued at night.

TO EVADE THE LAW

Packing Houses Have Found a Natural Color for Butterine.

Some of the local dealers who sell butterine have received notice that they can purchase butterine colored and sell it at the same price per pound as they did before the law went into effect July 1, when all butterine, colored by artificial means was taxed ten cents per pound, while the uncolored product is only one-fourth of a cent per pound. The price of colored butterine was raised correspondingly, but one of the packing houses has advised notice that they will sell butterine at about the same price they received before the law went into effect. The notice stated that the packing house had discovered that by the use of another ingredient in the manufacture of the oleo the deep yellow color would be imparted to it and there was no artificial coloring matter in the product. This ingredient costs a little more and the price will not be as low as before the first of July.

FINEST IN THIS HEMISPHERE

Mr. Thompson of the Rock Island on the Oklahoma Route.

Last evening Mr. E. W. Thompson of the great Rock Island route, with his headquarters at Topeka, accompanied by Mr. E. M. Duncan, traveling passenger agent, and Mr. Basson, the popular and bustling local representative of the road, called on the Eagle.

Mr. Thompson was eloquent over the prosperity of the great west. He said that from one end of the Rock Island route to the other, and in all the various industries and pursuits alike, in hamlet and city, conditions were ideal. The new country in Oklahoma, he says, is a marvel in a marvelous territory. "It has, in its year of development, surpassed the greatest admiration I had for it."

"Speaking of the new country," continued Mr. Thompson, "there is one thing in that vicinity, in Great country, which will be heard from in the future in a pronounced way. I refer to the red granite of that country. I happen to know something about granite. I saw brought up in the Vermont fields and know the superior article. When I first saw the Wichita granite granite I took some."

ALL TIRED OUT.

Hundreds More in Wichita in the Same Plight.

Tired all the time. Tired and worn out night and day. Back aches—side aches. All on account of the kidneys. Must help them at their work. A Wichita citizen shows how how.

Mr. E. Tinkler, of 1044 South Washington Ave., says: "My back ached so at times that I was unable to do the easiest housework and when there was added to it nervous prostration which prevented me from sleeping, as a consequence my health ran down and I was very poorly prepared to attend to the following day's duties. I consulted physicians whose medicine gave me temporary relief, but until I went to the Hocking-Moore Drug Co., 216 Douglas Ave., for Dr. Klenz's Kidney Pills I met with very little if any permanent success. You can judge of my surprise and gratification when my back ceased to ache and I slept like a child after using two boxes."

For sale by all dealers. Price 10 cents. Hocking-Moore Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Hocking-Moore—and take no substitute.

HIMROD'S CURE ASTHMA

is the one remedy in which you can place implicit confidence. It relieves the severest paroxysms of Asthma, Hay Fever, Whooping Cough and Spasmodic Croup almost instantly. For a quarter of a century it has been prescribed by the medical faculty throughout the world.

EMILY FAITHFULL, (the noted English Philanthropist) writes:—I have tried every remedy ever invented, and Himrod's Cure is the only one in which I have absolute confidence.

Send for a Free Sample. A trial will convince you of its remarkable efficacy.

HIMROD MAN'G CO.
Sole Proprietors,
14-16 VESEY ST. NEW YORK

and sent it to the South workers in Vermont. They pronounced it to be wonderful. It takes a beautiful polish, and there is no question at all that it is equal to the Peter's Head granite of Scotland. It surpasses anything in this country. There is nothing like it in the Rocky mountains. It is as certain to be used throughout the northwest as the sun is to rise. Of all the resources of the land in this section I regard it as the greatest, and I believe that time will prove that I am right.

If you have no appetite for your meals something is wrong with your digestion, liver or bowels. FRICKLY ASH BITTERS cleanses and strengthens the stomach, purifies the bowels and creates appetite, vigor and cheerfulness.

MAKING A NICE HOME

F. W. George Building Cottage Cor. Water and Thirteenth.

Wichita is becoming noted for its many beautiful cottages, and new ones are going up all over the city. One of the prettiest in the city is now nearly completed on the southeast corner of Water and Thirteenth streets, by F. W. George, a commercial traveler.

The cottage has nine rooms and two porches, one fronting east, which is neat and attractive. Mr. George is having new cement walks on both streets and cement curbing and walks in the yard wherever needed. The cottage is modern in every respect.

WILL FISH IN WISCONSIN

Party of Wichita Men Will Go to Star Lake.

A party of Wichita men will go to Star Lake in the northern part of the state of Wisconsin today for a two or three week's fishing and rest. C. W. Carey, Judge Dale, Harry Cowley, C. A. Tanner and R. R. Vermillion will compose the party.

Star Lake is a most delightful place and it contains fish in great abundance. The Wichita people have made arrangements to stop at a country hotel and they expect to have a very enjoyable rest.

YOUNG PEOPLE WITH A CIRCUS.

One of the Causes for the Popularity of the Wallace Circus is its Young Blood.

Although far different from the average business and affairs of men is that of the circus which the Great Wallace Show, which will be in Wichita on Saturday, July 26th, it is interesting to note that the important positions in that business are now filled by young men. B. E. Wallace, himself, is in the prime of life, while with a half-dozen exceptions, the half-dozen employees on his pay roll are young people, all of them less than 10 years of age, while perhaps half of them are under 20 years of age.

Commenting upon this characteristic of the Wallace Show the Columbia (S. C.) State said: "A striking feature of the Wallace Circus is the number of young people with the show. This is particularly true of the women performers, who are all young and fresh looking. From the executive staff to the greatest attractions, the people of the Wallace Show are the most business-like and best-behaved circus people that were ever in the city."

In other vocations many times young people displace older folks because they work for less salaries. This is not the case with the Wallace Show. Of the 120 performers billed by Mr. Wallace, a majority of them are young but they are paid higher salaries than any other circus of the past or present ever paid.

This is an age of specialists with ring performers. The time was when a man or woman was paid according to the number of acts they could do. The more acts the higher the salary, and in some instances two or three could give the whole show. Not so now. When Mr. Wallace contracts with his performers, it is not a question of quantity, but of quality. He insists upon having the cream of the profession. If the performer can do only one act, but do it better than any one else in the whole wide world, then he is sure of a place with the Great Wallace Show. As the older members of the profession depended upon the number and not the quality of their acts, it is easy to see why the younger people who are specialists are given the preference.

The general air of vigor, snap and ginger about the Wallace Show is a measure due to the young blood which Mr. Wallace has infused into the circus business.

ENLARGING "ZOO" PENS

Park Commissioners Believe Animals Need More Room.

The park commissioners are now enlarging the zoological pens in Riverside park as the greatest necessity for the small for the comfort of the animals. There are at present three elk, two deer and one antelope in the park "zoo." Park Commissioner Dickson stated yesterday that people look at the animals more than they do at the flower beds.

SUNDAY VESPER SERVICE

Will Be Held at Plymouth Congregational Church.

For the remainder of the month of July, the regular evening preaching service will be dispensed with at the Plymouth Congregational church and, beginning tonight, a vesper service will be held instead, beginning at 8:30 p. m. At the evening's service a special short play will be delivered by Rev. E. S. Sargent, pastor of the church, on "The Duke's Footstep to Poughkeepsie."

Mr. Lee Hays left yesterday for Cleveland, O., to attend the annual meeting of the United States Saddle Horse association, of which he is vice president. He will be absent two weeks.

IS COMING THIS WAY

Contract for Orient Construction Work Let

TO KINGMAN COUNTY LINE

Material for Depot and Tanks Is at Anthony.

The Orient is coming this way and as fast as the contracts can be closed for the work. Yesterday W. C. Edwards announced that he had closed the contract for the construction of the line from Harper City to the Kingman county line, and the work is to be completed by the first of October. The workmen expect to be into Harper before the end of this week, the rains having delayed the work for the past month.

O. G. Burrows, the newly elected traffic manager of the Orient railway company, is now at Anthony, superintending the construction of the line south of that city. His work at present is superintending the building of the facilities for freight and passenger traffic on the line. The material for the depot has arrived and is now being put into the building. The depot will be eighty feet long and twenty feet wide. The material for the three fifty thousand gallon water tanks passed through the city yesterday. One will be built at Anthony, one at Sand Creek and one at Carmen.

The tracklaying has been retarded on account of the recent heavy rains. The construction company expected to have the line down to Harper yesterday, but the men have reached only a distance of eight miles from Anthony. The crossing for the Santa Fe near Harper has not arrived and this is holding the work some. The rights of the Choctaw and Orient in regard to crossings have been settled in Harper county. The railway commissioners decided that the Orient had prior rights and that the cost and maintenance should be paid by both companies.

Keep your system in perfect order and you will have health, even in the most scorching season. The occasional use of FRICKLY ASH BITTERS will insure vigor and regularity in all the vital organs.

BAND CONCERT TODAY

Village Life in the Olden Times
Ch. Le Thiere
Creole Belle (Rag-Time March)
J. Bodenwalt Lampe
Star Spangled Banner.

SECRETARY'S REPORT

Of the Fidelity Oil Company Shows Prosperous Condition of an Unequaled Record.

A report of the secretary of the Fidelity Oil company, organized here, shows a wonderful record. This company was chartered under the laws of Texas May 15, 1902, capital stock \$250,000. They have one finished tanker on Spindle Top of 2000 barrels daily capacity and room for several more. They already have sold oil enough to pay a 25 per cent dividend on their capital stock. The first quarterly dividend is due October 1, 1902. They have pipe line connection to the railroads and to tide water. Can load cars or ships from and to their tanks. They will sell only a limited amount of their 25000 treasury stock to make improvements needed to handle oil sales more rapidly. All improvements are made from treasury stock sales. Oil sales are distributed as dividends. Each new well will be capitalized same as first well and stock distributed in proportion to investment in first well. J. D. Solvay called for Europe July 5 to visit oil brokers and ship owners across the waters to solicit business. He was prepared with proper credentials to get a portion of this business. One special feature of this company is ship and barge trade, as a greater profit can be made from this class of business. Water transportation being necessary, is free to all and is more profitable than railroad trade. The push and vim being put behind this company certainly commends them and their stock to investors. Their plan of issuing stock is really a grand floor plan. Any one desiring a good investment with quick returns will do well to call at their office and obtain their literature. This stock will be on sale only a short time. The owners are all men of integrity and business qualifications. J. F. Hocking is the president of the company, J. M. Monroie of El Reno vice president, J. R. Sistrup secretary and R. H. Johnson treasurer. The headquarters of the company is room 1, over 111 East Douglas avenue, Wichita, Kan. All communications should be sent to this address.

PROF. MARSHALL TO LEAVE

This His Last Day as Choir Director at Presbyterian Church.

Prof. E. C. Marshall, who was recently elected director of music at the Alva normal, will leave Tuesday or Wednesday for Chicago, where he will take special studies in voice method and theory. All the faculty of the normal are required to be in Alva on August 22, and Prof. Marshall will study in Chicago until about that date.

Prof. Marshall for nearly a year has been musical director at the First Presbyterian church and this will be his last Sunday there. In his honor the Presbyterian choir was entertained last night at the home of Miss Katharine Staley, 106 Fairview avenue, by Miss Staley, Miss Bernice Evans and Miss Irene Leper.

Diarrhoea

When you want a quick cure without any loss of time, and that is followed by no bad results, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It never fails and is pleasant and safe to take. It is equally valuable for children. It is famous for its cures over a large part of the civilized world.
